920 N. Ridge Ave., Suite A9
Lombard, IL 60148

Dear Mr. Bertulis,

I want to thank you and your crew for the outstanding job you did in renovating our condo building these past couple of months. From start to finish, it was so easy to work with you in completing such an enormous task. The whole project consisted of redecorating our 4 story building with new paint, tile, trim work, lighting, resident doors and other areas of need.

You had estimated time of completion to be 2 months and you finished right on time. This was important for our residents since it minimized, as much as possible, the inconvenience that such a project naturally presents. Your concern for our residents stood out during the entire process exhibiting nothing but exceptional courteousness, responsiveness, and professionalism in every regard.

And I haven't even mentioned the quality of work, which was superb! The care of our property and the meticulous attention to detail was evident in everything that was done. In addition, your advice during this project saved us money and improved the final look of our building. A customer could not ask for anything more from a contractor.

The overwhelming majority of our 54 unit residents love the way everything came out and applauded the way you and your crew conducted themselves throughout. Please let everyone know how much they are appreciated.

As with any condo association, we must get at least 3 bids for a project such as this. But, if it were solely up to me, I wouldn't bother as you would be the one I would select. Be that as it may, I look forward to working with you again on another project and would highly recommend your company for future painting and decorating needs.

Best regards,

Bill Arnieri
